Annex II

Duty of disclosure

Licensee

Example AG

1 Services / Products

The licensee shall provide OFCOM with a listing of the services implemented on its network - "Services with high commercial interest" - in accordance with part 2 of GSM MoU PRD SE.03.

The licensee shall inform OFCOM about the products offered by it to the general public in the form of corresponding product descriptions and price lists. If the prices are available on the internet, the corresponding URL is sufficient for this.

The information concerning services and products is to be supplied to OFCOM twice a year, at the latest on 31 January and 31 July respectively.

The information concerning services and products will be treated by OFCOM as non-confidential.

2 Number of users

The licensee shall provide OFCOM with the number of customers on its network, broken down according to product groups.

The numbers of users are to be supplied to OFCOM every three months, no later than the end of the months of January, April, July and October respectively. They will be treated by OFCOM as confidential. The right to anonymised publication within the framework of official telecommunications statistics is reserved.

3 Coverage

OFCOM shall be provided periodically with radio coverage maps in electronic form. Separate plots shall be provided for the individual frequency bands (800 MHz, 900 MHz, 1800 MHz, 2100 MHz and 2600 MHz) and for each mobile radio technology used.

The licensee shall provide the following additional information:

- Area coverage: percentage of the total area of Switzerland.
- Population coverage: percentage of the total Swiss population.
- The information concerning coverage is to be supplied to OFCOM twice a year, at the latest on 31 January and 31 July respectively.

All information concerning coverage is treated by OFCOM as confidential. The right to anonymised publication within the framework of official telecommunications statistics is reserved.
