

Application form for a satellite radiocommunications licence for **ck b'i gY**, unlimited duration

The completed form must be sent by e-mail to kf-fk@bakom.admin.ch or by post to the following address:

Federal Office of Communications
Radio Licences Section
Rue de l'Avenir 44
Case postale
CH-2501 Bienne

Further information on satellite licences can be obtained by contacting the following phone numbers:

Direct: +41 (0) 58 460 58 21, Reception: +41 (0) 58 460 55 11

Type of application

- ☐ Application for a new satellite radiocommunications licence
- ☐ Application for amendment of an existing satellite radiocommunications licence number:

Type of satellite radiocommunications services used

Mobile services

- ☐ Terrestrial
- ☐ Other:

Fixed services

- ☐ SNG (Satellite News Gathering)
- ☐ VSAT (Very Small Aperture Terminal)
- ☐ Other:

Please briefly describe your satellite radiocommunications network using a block diagram of the network to clearly show the hub and the control station (if different) and the connection points to the public network.

Technical annex to the application for a satellite licence for the provision of telecommunications services

General data		Explanations
Location of the installation, Address, Postal code, Town		Location of the installation in Switzerland
Coordinates		Coordinates of the antenna e.g. 2600 000 / 1200 000 national coordinates CH1903-LV95, Accuracy +/- 10 m according to 1:25 000 map Verify the coordinates at: http://map.geo.admin.ch
Elevation		Elevation above sea level in metres (+ or - 5 m)
Name of the satellite		Name of the satellite(s) according to the ITU register
Orbital position		Longitude (e.g.: 10° W)
Geostationary		Yes/no
Transponder		Designation / Number of the satellite transponder
Access code		If known (only for SNG)
Have you obtained the permission of the satellite operator to be able to operate your satellite radiocommunications installations with the above satellite(s)? <input type="checkbox"/> Yes		
Links	<input type="checkbox"/> Uplink <input type="checkbox"/> Downlink <input type="checkbox"/> Bi directional	Concerns locations in Switzerland only

Technical parameters	Uplink	Downlink	
Antenna			Explanations
Gain			In dB
Directivity			In degrees
Diameter			In metres
Antenna height			Antenna height above ground level (+ or - 1 m)
Azimuth			In degrees
Elevation			Elevation angle
Polarisation			V(γ), H(x), CR, CL / SR, SL with degree
Radiation diagram or radiation pattern			Append a diagram According to ITU, example: REC-580-6 / 29-25*LOG(FI)
Manufacturer			Name of the manufacturer
Type			Exact description of the type
Equipment			Explanations
Frequency band			In MHz, from ... to ...
Carrier frequency			In MHz
Bandwidth			In kHz
Designation (acc. To ITU RR)			Type of modulation; details are published on the ITU website
Bitrate			In kBit/s
Peak power			In dBW
Power density			In dBW/Hz
EIRP			In dBW, equivalent isotropically radiated power
Noise temperature			In °K
C/N objective			In dB
Manufacturer			Name of the manufacturer
Type			Exact description of the type
