Application for allocation of E.164 number blocks or codes

In principle, a separate application for allocation of E.164 numbers must be submitted for each planned service. This applies even to services of the same type which are provided in different, geographically delimited regions.

The applicant states its agreement to OFCOM informing current owners of E.164 numbers according to this allocation application in order to prevent allocation collisions.

The applicant applies for the allocation of E.164 number blocks or codes on the basis of the Ordinance on Addressing Resources in the Telecommunications Sector of 6 October 1997 (AEFV)¹.

Applicant's address

Name² _____
Address² _____
Postal code, town² _____
